

## CL 420- One chamber spraying system

Cleaning with separated rinsing of stencils, squeegees and misprints

- **Space-saving, compact**
- **Ideal medium drainage**
- **Low investment volume**
- **Low consumption**
- **Maintenance friendly**
- **Environmental friendly, closed-loop system**

### Specifications

Width: 930mm	Weight: 350Kg
Depth: 1405mm	Capacity: 800x800x40mm
Height: 1800mm	Loading height: 900mm
Cleaning Tank 75ltr.	Exhaust: 1x160mm - 500m³/h
Rinsing Tank: 75ltr.	Connections: 3x400V / 50Hz / 32A

### Basic equipment:

- Cleaning unit via rotating spray arms in a closed loop circuit
- Rinsing through three fixed mounted rinsing bars on each side
- 20" fine filter units within the cleaning and rinsing circuit
- Convection drying via heated air and connection possibility to the exhaustion
